

Neugenesis Corporation CEO, W. Dorsey Stuart, to present at **BayBio2009 Conference**

Press Release Date April 2, 2009, Burlingame, California

Neugenesis Corporation will make a Company Presentation at the BayBio 2009 Conference.: **Navigating the Storm** on April 16, 2009. The Conference is being held at the South San Francisco Conference Center. BayBio (<http://www.baybio.org>) describes the Company Presentations Track as featuring presentations by the hottest life sciences companies. Carefully selected by the [BayBio2009 Company Presentations Advisory Board](#), presenters will introduce the company, highlight key technologies, alliances, and where they stand with product & clinical developments.

"We are delighted BayBio has invited us to present Neugenesis at this exciting conference" said Dr. W. Dorsey Stuart, Neugenesis Chairman and CEO. "Our company has recently grown 10 fold from a very small research stage organization to an active development company with major contracts from the Federal Government. Our NeuBIOS™ production process enables a dramatic reduction in cost of goods and time-to-market, and Neugenesis is well positioned for further growth.

About Neugenesis Corporation

Neugenesis Corporation is a privately held biotechnology company which has been able to generate a diverse set of technology platforms and products for the world wide biotechnology and biopharmaceutical industry. In addition to its emerging position in vaccines, the Company holds strong intellectual property positions in the areas of production of recombinant monoclonal antibodies, cell based gene directed evolution and cell based combinatorial biology.
